Vishal Sharma

Software Engineer

Jaipur, India | [Email – to confirm] | [GitHub URL – to confirm] | [LinkedIn URL – to confirm]

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in backend architecture, REST API engineering, and scalable software systems. Experienced in developing secure service layers, relational and document database integrations, and intelligent web applications.

EDUCATION

B.Tech in Computer Science and Engineering — Expected Graduation: 2028
JK Lakshmipat University, Jaipur (Current Student)

TECHNICAL SKILLS

- **Languages:** Java, C++, JavaScript, Python, SQL
- **Frameworks & APIs:** Spring Boot, REST APIs, Node.js, Express, React
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools & Workflow:** Git, GitHub, Maven, Postman

PROJECTS

SellerLensIQ [React, Node.js, MongoDB, REST APIs]
Intelligent e-commerce analytics and monitoring platform. Architected RESTful endpoints, implemented data persistence models, and designed interactive analytics views.
[GitHub URL – to confirm] · [Live Demo – to confirm]

Clinic Management System [Java, Spring Boot, MySQL, REST APIs]
Healthcare scheduling and patient record management system. Implemented structured domain models, secure REST endpoints, and relational database persistence.
[GitHub URL – to confirm] · [Live Demo – to confirm]

Developer Portfolio [React, Node.js, Express, MongoDB]
Interactive full-stack portfolio built around a live request-path architecture. Features automated CV generation and serving, API health telemetry, and MongoDB contact persistence.
[GitHub URL – to confirm] · [Live Demo – to confirm]

CORE COMPETENCIES & FOCUS AREAS

API Design & Implementation • Database Integration & Modeling • Authentication & Security • AI-Assisted Application Development
